DANIELSON AND PUTNAM NEWS

DANIELSON

Something that many people have been awaiting for weeks transpired at 10:50 a. m. Monday, when the first trailer car that has been seen moving in Danielson since February 4, made its way down from Danville, carrying workmen who were engaged in picking out and cutting away stretches of snow and ice that still bind parts of the line with the chains of the worst winter that has been known in years.

It was rather funny to see a bustling salesman rush away from in front of the Danville hotel, where he was first seen, but this traveling man, one of the first who would ride, had to give up rather reluctantly, when his chase after the car revealed to him that it was not his own, but a car-carrying trip and that he must await other means of transportation to get where he would go.

The arrival of this first car in Danielson meant the beginning of a new era, however, if it did not mean immediate resumption of passenger service, and that thing was what the Rhode Island company's trolley express was to do, but it did not extend its arm until just as the first car arrived after the first time since the first few days of February.

The resumption of this express service means much to Danielson's business men and manufacturers, as it does also to many others in different parts of the town.

The Shore Line office announced on Monday evening that an hourly service will be resumed on the line from Central Village to Danville.

Captain A. P. Woodward, inspector of small arms practice, State Guard, gave out on Monday the official figures pertaining to the regimental "shoot" recently conducted and won by Co. D, Mystic, of the Third regiment, with the Kirkland trophy as the award.

Captain Woodward now has arranged a special shoot to be held at new London a week from today between teams representing D company of Mystic, C company of Danielson and F company of Norwich.

The Danielson and Norwich companies were tied in the final score of the team match just completed.

PUTNAM

Judgment for the defendant has been given in the case of James C. Bennett vs. John Student, tried in the superior court here a few days ago by Judge George E. Hinman. The defendant is given right to recover costs.

The suit grew out of a collision between a motorcycle owned by Mr. Student.

In the memorandum of his decision Judge Hinman says: Both defendant's automobile and plaintiff's motorcycle were running slowly on a straight road. It is found that before the plaintiff started to turn, the defendant sounded his horn at least once, possibly twice, and that the plaintiff looked behind him and must have seen the defendant's automobile approaching him from the rear. Even if the plaintiff gave the signal which he claims he did in the manner which he claims, he was not free from negligence. He admitted that he did not extend his arm until just as he started to turn and the facts indicate that the defendant was then very close behind him.

The defendant was justified in believing that the plaintiff was traveling on the right hand side of the road, and that he was going to stop, and that, having warned the plaintiff of his approach by sounding his horn, he could, by turning to the left, pass the plaintiff in safety, not when the defendant was too close to stop, even at the last moment, but when he was traveling, or otherwise save the plaintiff from harm, the plaintiff, giving warning, if at all, only as he started to turn, suddenly swerved his motorcycle to the left across the street in front of defendant's vehicle. To be sure the defendant thereupon also turned his automobile sharply to the left and collided with plaintiff's motorcycle on the left hand side of the road, but if he had driven straight ahead he would have probably struck the motorcycle; in any event, his conduct was obviously an attempt to avoid colliding with the plaintiff, and suddenly swerving as he was in danger of imminent collision with the plaintiff, if he failed to use the best means to avoid the accident, that does not necessarily render him guilty of negligence.

Under the circumstances, the plaintiff, knowing of the near approach of the defendant's vehicle, was negligent in suddenly turning to the left in front of said vehicle without sufficient, if any, warning and there is no room here for the application of the last clear chance doctrine. If the defendant was negligent in respect to the negligence of the plaintiff was concurrent with it and he cannot recover.

The claimed admissions by the defendant immediately following the collision, were, if made, concerning his lack of knowledge of English and ignorance, at the time, of his legal rights, not sufficient to entitle him to judgment.

Judgment was given for the defendant to recover his costs. Attorney C. L. Torrey was counsel for Mr. Student, and Attorney J. F. Carpenter was counsel for the plaintiff.

Judge Hinman also has handed down a decision in the case of Floyd Scott vs. Louis Breck, tried here this month.

In this decision the memorandum says: "The breach of the plaintiff, from whom the automobile was purchased by defendant vendor, was a mere bailee to whom the property had been entrusted by the plaintiff, the owner, without any indication of ownership or fraud or misleading acts other than the mere delivery of possession of said bailee. The latter, therefore, could not transfer a good title, as against the plaintiff, even to a bona fide purchaser. No damage for detention was proved. Judgment for the plaintiff to return possession."

Attorney C. L. Torrey was counsel for Mr. Scott, Attorney E. H. Johnson for the defendant.

This city may witness a resumption of trolley service by Wednesday or Thursday. Several miles of the Putnam division, which includes the line's mileage between Central Village and the state line north of here, are now open and a day or two more of effort should suffice to make possible the resumption of service at least on a part of the line and probably over its entire length. Just what the trolley people intend to do relative to resuming service had not been given out here Monday.

CURED HIS RHEUMATISM!

"I am 53 years old and I doctored for rheumatism ever since I came out of the army, over 50 years ago. Like many others, I spent money freely for so-called 'cures' and I have read about 'cure' until I could almost taste it. I would not sleep nights or walk without pain; my hands were so sore and stiff I could not do anything. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change." You might just as well attempt to put out a fire with oil as try to get rid of your rheumatism, neuritis and like complaints by taking treatment supposed to drive uric acid out of your blood and body. It took me 50 years to find out that it was the truth. He learned how to get rid of the true cause of his rheumatism, other disorders and recover his strength from "The Inner Mysteries" now being distributed free by an authority who devoted over 20 years to the scientific study of this trouble. If any reader of The Bulletin wishes "The Inner Mysteries of Rheumatism" overlooked by doctors and scientists for centuries past, simply send a post card or letter to H. P. Hallowell, 233-R St. Hallowell, Maine. Send now, lest you forget. If not a sufferer yourself, send this to a friend who has this good news and opportunity to some afflicted friend. All who send will receive it by return mail without any charge whatever.
